ACKNOWLEDGEMENTS

God is great all the time; He possesses all knowledge and understanding. He equipped me with the wisdom and capability to embark on this study from start until its completion. I am also grateful for the assistance from the following people:

Professor Julia Hornberger for supervising my work and believing in me. Peace, Love and Blessings unto her.

I deeply appreciate the effort and time of, my father Albert Risimati and my beloved wife Ripfumelo Sithole for assisting me with this research.

I thank the University of Witwatersrand for allowing me to register as a student at the University.

ECOPPAF for funding this research project.

Thanks to all the entire respondents who shared their stories with me. Though these were sad stories, which some refused to share with me, these respondents were brave and confident and I believe that other people will learn from you. Without these stories this study would not have been possible.

Thank you to my mother Sophie Risimati for all the support and motivation.
