**Report of Internal Examiner for Research Report submitted in partial fulfilment for MSc degree in Building (Project Management)**

**Candidate:** Gcinithemba Masimula

**Title:** Assessment of Stakeholders' Awareness of the Construction Health and Safety Regulations on Construction Sites in South Africa

| **EXAMINER'S DETAILED REPORT** | | |
|---|---|---|
| **No.** | **Description** | **Comments** |
| 1 | Understanding of the nature and purpose of the investigation | Acceptable.<br>*Comment is noted with thanks.* |
| 2 | Acquaintance with the relevant literature | Acceptable.<br>*Comment is noted with thanks.* |
| 3 | Understanding of the Scientific method | Acceptable.<br>*Comment is noted with thanks.* |
| 4 | Structure of the report | The structure is acceptable.<br>*Comment is noted with thanks.* |
| 5 | Scope of the research | The study was scoped appropriately.<br>*Comment is noted with thanks.* |
| 6 | Area covered by the research | The area covered by the research was acceptable.<br>*Comment is noted with thanks.* |
| 7 | Methodology | Acceptable.<br>*Comment is noted with thanks.* |

| | | |
|---|---|---|
| 8 | | The research title should reflect the "stakeholders" which appears to be discussed throughout. I have noted minor corrections on the document itself.<br><br>*The research title has since been amended to include "stakeholders" as indicated above. The further comments have been noted and responded to against each item below.* |

| **EXAMINER'S COMMENTS** | | | | |
|---|---|---|---|---|
| **No.** | **Description** | **Page** | **Section** | **Paragraph** |
| 1 | This is too broad, title suggests awareness on sites.<br><br>*The third sentence has since been removed in order for aim of research to be focused.* | 4 | 1.4 | |
| 2 | Where is the evidence that USA and UK have good track record on safety? Citation!<br><br>*The paragraph has been tweaked and citation included.* | 9 | 2.3 | 1 |
| 3 | How was the selection of chosen international countries done?<br><br>*The international countries were randomly selected as they are developed compared to South Africa, the case of the study.* | 12 | 2.4.1 | |
| 4 | Should be Objective.<br><br>*Sub-Question 1 maintained as per questionnaire utilised.* | 77 | 4.4.1 | |
| 5 | Sub-Problem 4 should be Objective.<br><br>*Corrected to read Sub-Question 4 as per questionnaire utilised.* | 102 | 4.4.4 | |
| 6 | "Stakeholders" does not show on heading (title).<br><br>*The research title has been amended to include "stakeholders" and now reads as, "**Assessment of Stakeholders' Awareness of the Construction Health and Safety Regulations on Construction Sites in South Africa**".* | 133 | 5.4 | |
