# Tribology of drill bit material in deep oil drilling process: variation of weight on bit (WOB) and bit rotating speed

## MSc (50/50) RESEARCH REPORT

*Prepared by*

**Mats'olo Seloanyane**

**1439795**

*Submitted to*

School of Chemical and Metallurgical Engineering, Faculty of Engineering and the Built Environment, University of the Witwatersrand, Johannesburg, South Africa

**Supervisor(s):**

Dr. Diakanua Nkazi (University of the Witwatersrand)

Prof. Peter Olubambi (University of Johannesburg)

November, 2019
