A research report submitted to the Faculty of Commerce, Law and Management, University of the Witwatersrand, in partial fulfilment of the requirements for the degree of Master of Management in Strategic Marketing

March, 2014

Supervisor: Yvonne Saini
Abstract

South Africa has a high annual road accident rate, mostly caused by drunken drivers.

Non-governmental organisations (NGOs) and corporates use different social marketing tools to reduce this pandemic. A key mass-reaching medium is advertising. This research is aimed at understanding those factors in advertising that affect its effectiveness when addressing the social issue of driving while under the influence of alcohol.

Through the literature review and the study of other programmes that have attempted to use mass media to reduce the problem, key factors were identified in both social and commercial marketing.

Part of the research was to understand the factors affecting advertising effectiveness on different demographics (race, gender, age, marital status, educational level), so a wide sample size of 300 respondents completed a questionnaire. The questionnaire contained an advert addressing drunken driving. One hundred of the respondents received a questionnaire with an advert sponsored by South African Breweries (SAB); another 100 respondents completed the same questionnaire with the same advert, but this was sponsored by an NGO. A further 100 respondents completed the same advert and questions, but the advert was sponsored through a partnership between both SAB and the NGO.

It was interesting to discover that females and males had different trust levels towards the advert. The less educated respondents showed more trust towards the source whilst the more educated respondents displayed less trust levels. SAB also scored high in source credibility which involves trustworthiness and expertise. NGO were not regarded as experts but their expertise score increased in partnership with SAB. However, the partnership also showed the least trust. The highly educated were also the most involved.
Declaration

I, Luvhimba Phaswana, declare that this research report is my own work except as indicated in the references and acknowledgements. It is submitted in partial fulfilment of the requirements for the degree of Master of Management in Strategy Marketing in the University of the Witwatersrand, Johannesburg. It has not been submitted before for any degree or examination in this or any other university.

Luvhimba Phaswana

Dedication

This research is dedicated to my family, especially my mother Takalani Tshivhase and my late grandmother, Gugu Iremela Tshivhase.
Acknowledgements

I would like to acknowledge the assistance of my supervisor, Mrs Yvonne Saini for assisting so late in the process. I would also like to acknowledge Jeremy Mitonga for all his support and assistance.

This research study could not have been possible without the help of family, friends, and colleagues. They all participated in the completion of the survey. I would like to specifically acknowledge my sister, Tellie Madzivhandila, my uncle, Tony Tshivhase, and Nosipho Makhanya.
Table of contents

Chapter 1.  Introduction.......................................................... 1
  1.1  Purpose of the study.................................................. 1
  1.2  Context of the study.................................................. 1
  1.3  Research problem.................................................... 4
  1.4  Research objectives................................................. 5
  1.5  Significance of the study........................................... 6
  1.6  Delimitation of the study.......................................... 6

Chapter 2.  Literature Review.................................................. 8
  2.1  Introduction............................................................ 8
  2.2  Background on Advertising....................................... 8
  2.3  Factors affecting advertising.................................... 10
  2.3.1  Involvement........................................................ 12
  2.3.2  Source credibility................................................ 15
  2.3.3  Message content............................................... 18
  2.4  Social marketing..................................................... 20
  2.4.1  Social marketing versus Commercial marketing........... 21
  2.5  Addressing “drunk driving” through social marketing advertising campaigns.......................................................... 28
  2.6  Conclusion.............................................................. 31

Chapter 3.  Research Methodology.......................................... 34
  3.1  Introduction............................................................ 34
  3.2  Research Philosophy............................................... 34
3.2.1 Ontological approach .................................................. 35
3.2.2 Epistemological approach .......................................... 36
3.3 Research design ............................................................... 36
3.4 Population and Sample ..................................................... 37
  3.4.1 Population ............................................................... 37
  3.4.2 Sampling ................................................................. 38
3.5 Research instrument .......................................................... 38
3.6 Procedure of data collection ............................................ 40
3.7 Data analysis and interpretation ...................................... 41
  3.7.1 Descriptive statistics ................................................ 41
  3.7.2 Chi-squared and Fisher Exact test .............................. 41
3.8 Validity and Reliability ..................................................... 42
  3.8.1 Validity ................................................................. 42
    3.8.1.1 External Validity .............................................. 42
    3.8.1.2 Internal Validity .............................................. 43
  3.8.2 Reliability ............................................................. 43
3.9 Pilot Study ................................................................. 45
3.10 Research ethics ............................................................ 45

Chapter 4. Presentation of results ......................................... 47
4.1 Introduction .................................................................... 47
4.2 Demographics ............................................................... 48
  4.2.1 Race Profile ............................................................ 48
  4.2.2 Gender Profile ......................................................... 49
  4.2.3 Age Profile ............................................................. 49
5.1 Introduction ........................................................................................................... 97
5.2 Demographics ........................................................................................................ 97
