

**Tribology study in deep downhole drilling processes:  
Influence of contact pressure and sliding speed on friction  
under Newtonian and Non-Newtonian Lubrication.**

**MSc (50/50) Research Report**

*Prepared by*

**Siphesihle Mbatha (683396)**

*Submitted to*

School of Chemical and Metallurgical Engineering, Faculty of Engineering and the Built  
Environment, University of the Witwatersrand, Johannesburg, South Africa

Supervisor(s):

**DR Diakanua B. Nkazi (University of the Witwatersrand, South Africa)**

**Prof. Herman Potgieter (University of the Witwatersrand, South Africa)**

**Prof. Robert J.K. Wood (Southampton University, England, UK)**
