MEMORANDUM

To : Regional Directors / Regional Health Managers
From : Dr Refik Bismilla - Director: Health
Date : 25 April 2006
SUBJECT : Permission for research project on STIs at PHC health facilities

Please note that two students at the Wits School of Public Health will be conducting a study in the City's health facilities on STIs.

The study will assess the quality of care of STI services and the clinicians' knowledge and practices in the management of STIs.

Find attached the research proposals from the students (one from each). The ethics approval has already been obtained from the University of Witwatersrand Ethics Committee. This approval will be made available to yourselves once the hard copy is received. The students are M. Sibanyoni and M. Pelesa.

The Wits School of Public Health will be given the contact details of the Regional Health Managers to facilitate the contact for the students.

You are requested to inform the health facilities of the study.

Thank you

Dr Refik Bismilla
Director: Public Health

TO WHOM IT MAY CONCERN

Re: Authorisation for research projects to be conducted in health facilities in Gauteng province by Wits MPH students

This serves to inform you that the Gauteng Department of Health (GDOH), through the research and epidemiology unit of the ITM Directorate has developed a relationship with the Wits School of Public Health, which provides SPH an opportunity to link its service, research and teaching functions, while addressing priority health needs of the GDOH.

In this regard, a group of MPH students at the Wits SPH have developed their MPH research projects in line with the health priorities of GDOH. We believe these projects are relevant to GDOH as they will provide useful tool that will assist us to monitor and evaluate our health services and programmes.

These students (listed in the table below), through the Wits SPH, have requested the GDOH for authorisation to conduct their research projects in our health facilities.

Ethics clearance certificate has been granted by the wits ethics committee and are hereby attached.

Appendix E

The facility managers will be timely approached for permission to access their respective facilities.

We have no objection to recommend that the studies be conducted in this Province.

Thank you,

Yours sincerely,

A handwritten signature in black ink, appearing to be 'ML Likibi', written over a horizontal line.

Dr ML Likibi
Research and Epidemiology unit

EVALUATION PROJECTS FOR MPH STUDENTS

As part of the collaboration between the Gauteng Department of Health and Wits School of Public Health, a number of evaluation projects have been identified for completion by MPH students (see attached correspondence and documentation).

Please assist the students in gaining access to relevant facilities in your district.

Many thanks
