LIST OF TABLES

Table 1: Patients’ characteristics in control and study groups 32
Table 2: Race / Suburb distribution in both groups 32
Table 3: Patients’ occupations in the study and control groups 35
Table 4: Behavioural features of control and study patients 36
Table 5: Smoking occupational distribution in control and study patients 37
Table 6A: Alcohol/Age distribution 38
Table 6B: Alcohol/Smoking distribution 38
Table 7: Symptoms of study patients 41
Table 8A: Common Diagnosis in the control group 43
Table 8B: Other Diagnosis in the control group 43
Table 9: Clinical data of study and control patients 45
Table 10: (common abnormalities on Chest-X-Ray 49
Table 11: Haematological data 51
Table 12: Biochemistry 52
Table 13: Liver Function and Enzymes Assays 53
Table 14: Core research laboratory results of both study and control patients 56
Table 15A: Correlation between Plasma vitamin C and other variables 62
Table 15B: Correlation between White Cell Vitamin C and Other Variables 62
Table 16: Table showing mean, standard deviation and p values of different variables in smokers and non-smokers 79
