Figure 7. Shaded relief map based on the 90m SRTM digital elevation model showing the widespread occurrence of various types of landslides in areas studied within KZN. Occurrences were identified through aerial photographic interpretation, field mapping and from literature reviews.

Legend
- Tugela landslides
- Landslides in KwaZulu-Natal
- AREA
  - Fall, Rock, Recent-landslide
  - Flow, Debris, Palaeo-landslide
  - Flow, Debris, Recent-landslide
  - Flow, Earth, Recent-landslide
  - Rotational, Debris, Palaeo-landslide
  - Rotational, Debris, Recent-landslide
  - Rotational, Earth, Recent-landslide
  - Translational, Debris, Recent-landslide
  - Translational, Earth, Recent-landslide
  - Translational, Rock, Recent-landslide
  - Undifferentiated, Landslide
  - Undifferentiated, Recent-landslide
  - Undifferentiated, Debris, Palaeo-landslide
  - Undifferentiated, Debris, Recent-landslide
  - Undifferentiated, Earth, Recent-landslide
  - Undifferentiated, Rock, Recent-landslide
