“Obscurity is a far greater threat to authors and creative artists than piracy” (T. O’Reilly)

If you aren’t on Google, you don’t exist!
Why Open Access for Authors?

- Most research articles accessible by only a few
- Online managed, permanent database of scholarly output
- Open Access (OA) maximizes:
  - research visibility, usage and uptake
  - research applications, impact and citation
  - research productivity, progress and funding
  - research manageability and assessability

By maximising research accessibility!
Why Open Access for universities?

- Ethical argument – give public access
- Maximises, measures and rewards uptake, usage, applications and impact of research activity
- Showcases research output on global stage
- Reduce e-licences, journal subscriptions & copyright fees
