

LETTER SENT TO MOTHERS

UNIVERSITY OF THE WITWATERSRAND
SCHOOL OF PSYCHOLOGY
PRE-SCHOOL RESEARCH PROJECT

Dear ,

The purpose of the study is to investigate the effects of different pre-school facilities on the physical and emotional development of the children attending them. On the basis of our findings we hope to make recommendations to the centres concerned that will benefit the children.

As mentioned on the phone we will require approximately one hour of your time in which we will have : a short interview with you, ask you to complete a questionnaire and observations will be made of the children's reactions to different situations. All information is strictly confidential. Remember - only you and your youngest child are required to participate.

Enclosed you will find a map of the university and surrounding area where you will be required to come. I shall be contacting you in a few weeks time to confirm times and to clear up any queries or problems concerning the study and your participation.

I hope you will find this an interesting and worthwhile study.

Your contribution is greatly appreciated.

Yours sincerely,

Annette Friedman

RAW DATA

PPAS = Total Porter Parental Acceptance Scale; A = the parent "regards his child as a person with feelings and respects the child's right and need to express these feelings"; B = The parent "values the unique make-up of his child and does what he can to foster that uniqueness within the limits of healthy personal and social adjustment"; C = The parent "recognizes the child's need to differentiate and separate himself from his parents; to become an autonomous individual"; D = The parent "loves his child unconditionally"; F.T. = Frustration tolerance; M.L. = Mother leaves; M.R. = Mother returns; T.S.A. = Total Separation Anxiety; STRANX = Stranger Anxiety; C.C.M. = Child Coping Mechanisms; RESP + A.C. = Responsiveness + Acceptance; RESP = Responsiveness; AC = Acceptance.
