Kom Binne: A Narrative exploration of Coloured adolescents' relationship between home and personal agency.

Assent Form

Dear Sir/Madam

My name is Jacqlyne Titus and I am doing a research project on the relationship between home and personal agency with young people. A research project is a way to learn about people. If you decide to be a part of this study you will be asked to, use personal stories of your experience of *home* and what *personal agency* means to you. Personal agency refers to your drive or will to do something on your own. We will be using drama and theatre as a way to explore *home* and *personal agency*. As part of the research we will also be creating a theatre piece together in which you will perform your own stories in front of an audience. The research workshops will take place over the course of 6 weeks.

There are some things about this study you should know. We will be using your own stories and sometimes you will be asked to share this story with some of the other members who will be part of the study. You will be asked to be a part of a theatre piece using the stories from the workshops, this theatre piece which will be viewed by an audience.
When we are finished with this study I will write a report about what was learned about the relationship between *home* and *personal agency*. This report will not include your name or that you were in the study.

You do not have to be in this study if you do not want to be. If you decide to stop after we begin, that's okay too. Your parents know about the study too. As part of the study I will also be video recording the sessions, this will not be seen by anyone
