LIST OF FIGURES

Figure 1.1 Classification of fractures by anatomic site ……... 4

Figure 1.2 Horizontally favourable and unfavourable fractures ……. 5

Figure 1.3 Vertically favourable and unfavourable fractures ……. 5

Figure 1.4 Classification of fractures based on dentate/edentate segments …… 6

Figure 2.1 Orthopantomograph (OPG) ……. 12

Figure 2.2 Posterior-anterior mandible (PA) ……... 13

Figure 2.3 Reverse Towne's …… 13

Figure 3.1 Swelling of the face ……. 18

Figure 3.2 Abrasions of the torso …….. 18

Figure 3.3 Laceration of the face associated with mandible fracture …….. 18

Figure 3.4 Mandibular fracture sites and frequencies …….. 19

Figure 3.5 'ORIF' mini-plates & screws …….. 23

LIST OF TABLES

Table 3.1 Frequency distribution by age; gender & race ……..... 15

Table 3.2 Age details by race ……..... 16

Table 3.3 Frequency by occupation & nature of injury ……. 16

Table 3.4 Frequency by single & multiple fractures ……. 17

Table 3.5 Fracture characteristics by race group …… 20

Table 3.6 Frequency of fracture type; associated injury & alcohol by decade …… 20

Table 3.7 Frequency of alcohol consumption & loss of consciousness by race …… 21

Table 3.8 Frequency of tooth in fracture line; nerve damage; displacement and treatment …….. 21
