MANAGEMENT AND FACILITATOR'S CONSENT

UNIVERSITY OF THE WITWATERSRAND

PROJECT TITLE: An evaluation of Kha Ri Gude campaign at centers in Tshwane

Investigator: Mr Frank Chinyamakobvu

Description: The purpose of this research is multiple. Among others it is to investigate various ways in which Kha Ri Gude either prepares or fails to prepare adult learners for further learning in the ABET systems, investigating who Kha Ri Gude serves well as well as finding out who has been left out so as to be able to offer suggestions for ways in which Kha Ri Gude might develop or change in response to future needs as well as justifying the government resource allocation to the education sector in general and Kha Ri Gude campaign in particular. All this shall be done by mainly interrogating how the use of mother tongue is assisting learners in their learning process.

To achieve this class observation, verbal and written interviews will be conducted. Effort has been made to ensure that questions that will be asked to all participants do not bring physical, psychological, emotional, financial and any other harm to any persons. Questions that will be asked are mainly developmental in nature. Issues that seek to apportion blame shall be avoided. No names of participants will be required in cases where anonymity could be compromised.

Results will be made available to the department of education particularly the ABET sector, Umalusi and all Kha ri gude learners.

As a researcher I am prepared to give information related to the project that any participant may wish to get clarification on.

AUTHORIZATION: I _____ have read the above and understand that by agreeing to participate in this research I have not waived on any policies and regulations. I also understand just like as expected of other participants , that I have the right to protect individuals involved in this research but am free to withdraw at any time.
