This CD contains the following items for the submission of the MSc(Eng) research by Kanaka Babshet (student number 678851):

1. MSc Dissertation – titled: *A Visual Complexity Learning Algorithm for Modelling Human Performance in Visual Cognitive Tests*

2. The Abstract of the MSc Dissertation

3. Folder of all source code as written and implemented in this research on Matlab, version 9.5, release R2018b.

   - The entire program can be executed by running the 'main.m' file
   - This folder also contains:
     - The original dataset read in for the program
     - The product list of the Matlab Products (and versions) that were utilised during this implementation
