Ideal Image

These images represent the amazing journey that has led to the existence of this study and the giants on whose shoulder I have stood throughout. I have great love and respect for these giants for they have enabled me to stand on their shoulders and reach for my biggest dream yet, this study!

The *real image* is our representation of how we each felt when I first spoke of my dream. The *transitional image* is our representation of the endurance that went into the creation of the dream and the *ideal image* is representative of the great joy and triumph now that this dream has become a reality. To my team of giants because of you I am!

With great humility I wish to thank:
