TABLE OF CONTENTS Page

Abstract **i**
Declaration **iii**
Acknowledgements **iv**
Table of contents **v**
List of Tables **ix**
List of Figures **xi**

CHAPTER 1: Background to the study **1**

1.1 Introduction **1**

1.2 Research outline **1**
1.2.1 The problem investigated in the study 1
1.2.2 Aims and objectives of the research 3
1.2.3 Questions investigated 4
1.3 Significance of the study **5**
1.4 Demarcation of the study **5**
1.5 Organization of the project report **5**
1.6 Conclusion **6**

CHAPTER 2: Literature study **7**

2.1 Introduction **7**
2.2 Nature of science **7**
2.3 Theoretical Framework **9**
2.3.1 Constructivist's view of science 9
2.3.2 Learning science as inquiry 13

2.3.3 Process approach and Curriculum 2005 15

2.4 Procedural knowledge and its role in understanding scientific evidence 19
2.5 Surveying ideas about evidence amongst science learners 22
2.5.1 Studies in relation to reliability` 23
2.5.2 Studies in relation to validity 24
2.6 Open-ended investigations: its role in the understanding of evidence in science 28
2.6.1 What is meant by open-ended investigations? 28
2.6.2 Advantages of open-ended investigations 30
2.7 Conclusion 32

CHAPTER 3: Research design 33

3.1 Introduction 33
3.2 Research design 33

3.3 Data collection techniques 34
3.3.1 Diagnostic investigation of learners' understanding of concepts of validity 36
3.3.2 Class tasks (Intervention) 38
3.3.3 Diagnostic investigation of learners' application of concepts of evidence in the CTA investigation task. 43
3.4 Population and research sample 44
3.5 Reliability and Validity of Analysis 45
3.5.1 Reliability 46
3.5.2 Validity 46
3.6 Permission to conduct research in the school 48
3.7 Conclusion 49

CHAPTER 4: Results of the diagnostic test **50**

4.1 Introduction **50**
4.2 Data analysis **51**
4.2.1The coding scheme 51
4.2.2 The model for analyzing and interpreting data 54
4.3 Findings **56**
4.3.1 Selecting the independent variable 56
4.3.2 Identifying control variables 59
4.3.3 Choice of interval and range of the independent variable 61
4.4 Learners' overall performance **65**
4.5 Discussion **66**
4.6 Conclusion **68**

CHAPTER 5: Results of the CTA investigation task **69**

5.1 Introduction **69**
5.2 Data analysis **70**
5.2.1 Selection of rubrics 70
5.2.2 A model of analyzing and interpreting data 72
5.2.3 Validity and reliability 73
5.3 Findings **74**
5.3.1 Control variables 75
5.3.2 Independent and dependent variables 77
5.3.3 Investigative problem 79
5.3.4 Method description 81
5.3.5 Interpretation of data 82
5.3.5.1 Graphical skills 83
5.3.5.2 Drawing conclusions from data 84
5.4 Conclusion **86**

CHAPTER 6: Summarized findings, implications and recommendations 88

6.1 Introduction 88
6.2 Summarized findings of the study 89
6.3 Answers to research questions 93
6.4 Recommendations 94
6.5 Problems experienced with this study 96
6.5.1 Problems experienced with the literature study 96
6.5.2 Demand of the class tasks designed to develop an understanding of concepts of evidence in learners. 96
6.6 Limitations of the study 97
6.7 Conclusion 97
6.8 Areas for further research 98
