DECLARATION

I, **Jacob Kgaogelo Mathekga,** declare that "The association between type of place of residence and infant and child mortality in Angola" is my own piece of work. It is submitted for the degree of Master of Arts in Demography and Population Studies at the University of the Witwatersrand, Johannesburg. To the best of my knowledge, it has not been submitted before for any other degree or examination in any other university and that all the sources I have used or quoted have been indicated and acknowledged as complete references.

ACKNOWLEDGEMENTS

I would like to thank my parents for their prayers and support throughout the journey of life. I am blessed to have you in my life.

Thanks to Prof. Clifford Odimegwu for developing and nurturing my interest in the field of Demography and Population Studies.

Special thanks to Jeremy Gumbo and Evans Muchuri for sharing your rich knowledge on analysis. Keep on being good tutors.
