Table of Contents

Abstract: 1

Chapter 1: Introduction. 3

1.1 Introduction and background: 3

1.2 Problem Statement: 6

1.3 Research question: 6

1.3 Research Objectives: 7

1.3.1 General objective: 7

1.3.2 Specific objectives: 7

1.4 Justification: 7

Chapter 2: Literature Review and Conceptual Framework. 11

2.1 Literature review. 11

2.1.1 Child mortality: 11

2.1.2 Child mortality in Zimbabwe: 12

2.1.3 Child Mortality Policy and initiatives: 13

2.1.4 Domestic Violence: 14

2.1.5 Domestic violence and reproductive health: 14

2.1.6 Domestic violence and under-five child mortality: 15

2.1.7 Child Nutrition: 16

2.2 Conceptual and theoretical framework 18

2.3 Conclusion 19

Chapter 3: Methodology. 21

3.1. Introduction: 21

3.2 Study Design: 21

3.2.1 The 2005/2006 ZDHS 21

3.2.2 Study population 22

3.2.3 Sample Size 22

3.2.4 Questionnaire design 23

3.2.5 Training and Field Work 23

3.2.6 Data processing 24

3.3 Variables used in the data analysis 24
3.3.1 Variable Definitions: 24
3.3.2 Independent variables: 25
3.3.3 Dependent variables: 27
3.4 Hypotheses 29
3.5 Ethical Considerations 29
3.6 Data Management 29
3.7 Data Analysis 30
Chapter 4: Results. 32
4.1 Characteristics of the respondents: 32
4.2 Bivariate analysis 36
Chapter 5: Multivariate Analysis of the Association between Domestic Violence and Child Health Outcomes 41
5.1 Introduction 41
5.2 Multivariate analysis, displaying odds ratios of variable clusters by socioeconomic, demographic and physical violence characteristics respectively 42
5.3 Multivariate analysis of combined variables of socioeconomic, demographic and physical violence characteristics 47
Chapter 6: Discussion. 53
Chapter 7: Conclusions and Recommendations. 59
7.1 Conclusions 59
7.2 Recommendations 61
7.3 Limitations of the study 62

References: 63
Appendix: 68

List of Figures:

Figure 1. Adapted Framework for the study of domestic violence and child health outcomes: (Mosley and Chen, 1984) 19

List of Tables:

Table 1. Variables used and their definitions..... 26

Table 2 Child health outcomes including malnutrition and mortality variables 28

Table 3.Characteristics of abused women in relationships who had given birth or are currently pregnant, ZDHS 2005 – 2006. 32

Table 4.Among the women, percentage who reported abuse by their partners, by type of abuse and child health outcomes..... 35

Table 5.Bivariate Odds Ratios between child survival and selected characteristics of abused women 37

Table 6. Among the women, odds ratios, from multivariate logistic regressions assessing the association between cluster variables, respectively and poor child health outcomes. 43

Table 7. Among the women, odds ratios, from multivariate logistic regressions assessing the association between socioeconomic, demographic and physical violence characteristics and child health outcomes. 48

Table 8. Among the women, odds ratios, from multivariate logistic regressions and bivariate logistic regressions, in associating differentials between physical violence characteristics and child health outcomes..... 51
