ACKNOWLEDGEMENTS

Thank you to my husband Kumesh, for his support and patience during all of my studies, but especially during this project and for his certain belief in me. Thanks also to my parents for their guidance and support.

Further, I would like to thank my supervisors Mrs. Teresa Hattingh and Professor D.R. Snaddon for their assistance throughout this project.

Many people from the company have assisted me in obtaining information, organizing interviews, calculations, and reporting. Thank you to Karin Kruger, Nelson Sefara, Kiril Dimitrov, Gavin Davies, Raymond Lund, Dawid Groenewald, Poobie Govender, Shashona Singh, Laven Reddy, Helené du Toit, and Kamil Sewsunker.
