APPENDIX 1.2.

Group interview with practitioners and community participants

Names			Date
Language	Translator	Project	Interview No.

Introductions and background to the research

1. PROCESS

Please describe how the programme was developed. (If this has been included in reports or other project documentation, this will be used). Include: Who decided that there was a need to develop the nursery? How were community participants involved in the process, etc.

Did you consider any other alternatives to the development of a nursery during your planning process? If yes, what were these? If no, why not?

2. STAKEHOLDER CONTRIBUTIONS

What did the community participants bring to the project at the very beginning?

What did the implementing agency bring to the project at the very beginning?

What did the community participants contribute to the project at the beginning?

What do the community participants contribute to the project now?

What does the implementing agency contribute to the project now?

3. INSTITUTIONS

What community institutions are in place?

Are they newly created or did they exist prior to the programme?

When were they started?

4. CONSTITUTION (OBTAIN A COPY IF POSSIBLE)

How was the constitution drawn up?

5. BENEFITS

How have you benefited from the project?

Have there been any costs associated with the project? If yes, what were these?

Has the broader community benefited from the project? How?

Have there been any costs to the community? If yes, what were these?

Appendix 1.2. Group interview.

Have there been any unexpected costs or benefits associated with the project?

6. ECOLOGICAL RAMIFICATIONS

Do you think that this programme is achieving its ecological aim(s)? How?

How are you monitoring this?

What, if any, environmental factors influence the programme?

7. FACTORS INFLUENCING THE SUCCESS OF THE PROGRAMME

What do you believe to be the most important successes of your project?

What are the threats to your project?

What do you believe to be the most important factors that will influence whether your project succeeds or fails?
