Dear Prof Papathanasopoulos.

Re: Corrections to research report: The lower limb muscle activity and lumbo-pelvic movement control in soccer players: a matched case control study: Ms Riali Roos: Student no: 352991

This is to confirm that I am satisfied that Ms Riali Roos has done all the corrections as requested by the examiners to my satisfaction. All the queries raised by the examiners have been adequately dealt with and I am convinced that Ms Roos has benefitted from addressing the examiner concerns.

Regards,

Professor Witness Mudzi
