LIST OF TABLES

4.1 Demographic characteristics of respondents

4.2 Socio-economic characteristics of respondents: individual level

4.3 Distribution of Respondents by Environmental factors, and Sources of Water and Toilet Facilities by Ethnic Groups Socio-economic characteristics of respondents: household level

5.1 Probability of dying before the age of one

5.2 Probability of dying before the age of five

5.3 Bivariate odds of child mortality

5.4 Odds of child mortality by demographic, socio-economic and household environmental background of mothers: bivariate logit results

5.5 Net influence of ethnicity on sex-specific mortality risk after socio-economic and demographic factors are considered

5.6 Percentage change in child mortality risk between bivariate and multivariate models

5.7 Bivariate and multiple logistic odds ratios of preventive and curative health services in Ghana by Ethnicity
