It is policy to require support for assertions and evidence for criticism. Ideas or facts rather than people should be subjected to criticism.

The Editorial Board expresses itself only in editorial comment. Contributors have a right to private and opposed views, for which the Board is not responsible. We believe in giving hospitality to all points of view that are well presented.

We welcome contributions from Afrikaans educationists, as from other non-English-speaking peoples in Southern Africa, providing their work is submitted in, or may be translated into English, which is the medium of this Journal.

SYMPOSIUM

is published under the aegis of the College of Education, Johannesburg.

SYMPOSIUM

offers a platform for the intelligent and open discussion of all matters affecting education, in the belief that free debate will foster the type of individual accustomed to decision and hence capable of adapting himself to the future and promoting the best interests of his community.

SYMPOSIUM

considers contributions from all who are engaged in teaching, whether they work in Universities, State Schools, Private Schools, or Religious Institutions. It seeks to serve the people of Southern Africa, including the Protectorates.
