Re: Approval in Respect of Request to Conduct Research

This letter serves to indicate that approval is hereby granted to the above-mentioned researcher to proceed with research in respect of the study indicated above. The onus rests with the researcher to negotiate appropriate and relevant time schedules with the school/s and/or offices involved to conduct the research. A separate copy of this letter must be presented to both the School (both Principal and SGB) and the District/Head Office Senior Manager confirming that permission has been granted for the research to be conducted.

Permission has been granted to proceed with the above study subject to the conditions listed below being met, and may be withdrawn should any of these conditions be flouted:

1. *The District/Head Office Senior Manager/s concerned must be presented with a copy of this letter that would indicate that the said researcher/s has/have been granted permission from the Gauteng Department of Education to conduct the research study.*
2. *The District/Head Office Senior Manager/s must be approached separately, and in writing, for permission to involve District/Head Office Officials in the project.*
3. *A copy of this letter must be forwarded to the school principal and the chairperson of the School Governing Body (SGB) that would indicate that the researcher/s have been granted permission from the Gauteng Department of Education to conduct the research study.*

4. A letter / document that outlines the purpose of the research and the anticipated outcomes of such research must be made available to the principals, SGBs and District/Head Office Senior Managers of the schools and districts/offices concerned, respectively.
5. The Researcher will make every effort obtain the goodwill and co-operation of all the GDE officials, principals, chairpersons of the SGBs, teachers and learners involved. Persons who offer their co-operation will not receive additional remuneration from the Department while those that opt not to participate will not be penalised in any way.
6. Research may only be conducted after school hours so that the normal school programme is not interrupted. The Principal (if at a school) and/or Senior Manager (if at a district/head office) must be consulted about an appropriate time when the researcher/s may carry out their research at the sites that they manage.
7. Research may only commence from the second week of February and must be concluded before the beginning of the last quarter of the academic year.
8. Items 6 and 7 will not apply to any research effort being undertaken on behalf of the GDE. Such research will have been commissioned and be paid for by the Gauteng Department of Education.
9. It is the researcher's responsibility to obtain written parental consent of all learners that are expected to participate in the study.
10. The researcher is responsible for supplying and utilising his/her own research resources, such as stationery, photocopies, transport, faxes and telephones and should not depend on the goodwill of the institutions and/or the offices visited for supplying such resources.
11. The names of the GDE officials, schools, principals, parents, teachers and learners that participate in the study may not appear in the research report without the written consent of each of these individuals and/or organisations.
12. On completion of the study the researcher must supply the Senior Manager: Strategic Policy Development, Management & Research Coordination with one Hard Cover bound and one Ring bound copy of the final, approved research report. The researcher would also provide the said manager with an electronic copy of the research abstract/summary and/or annotation.
13. The researcher may be expected to provide short presentations on the purpose, findings and recommendations of his/her research to both GDE officials and the schools concerned.
14. Should the researcher have been involved with research at a school and/or a district/head office level, the Senior Manager concerned must also be supplied with a brief summary of the purpose, findings and recommendations of the research study.

The Gauteng Department of Education wishes you well in this important undertaking and looks forward to examining the findings of your research study.

Kind regards

APPENDIX 9

Principal Information and Permission Form:

Dear Sir,

In partial fulfillment of the requirements for the completion of my Masters degree in Educational Psychology I am required to do a research project. I intend conducting my research on the "THE COGNITIVE APPROACH TO LITERACY INSTRUCTION (CATLI)" and implementing it with my class. The CATLI use both bottom up (phonics) and top down methods (whole language approaches) to teaching reading. These methods have been proven to make literacy instruction easier for learners, as it involves learners in talking (signing), listening and understanding (watching and experiencing), reading and writing tasks. The CATLI is also based on OBE and constructivists principles, which involves learners in experiential learning.

Research in this area has potential implications for improving our methods of teaching as well as increasing the Deaf learners ability to acquire language, reading and writing skills and in due course fulfill the educational needs of the Deaf learner in the future Inclusive Educational system.

The Inclusive Education Policy stipulates that schools and Educators are expected to create an able and supportive environment for learners to achieve. Educators are expected to be creative and innovative and flexible when developing learning programs, this research is envisaged to benefit learners in improving language, reading and writing skills, as well as Educators in their teaching methods.

I am requesting your permission to implement the programme in my class as part of my teaching. The CATLI will be implemented as part of the LLC learning programme and will be integrated with the Numeracy and Life Orientation programme.

Participation in the research would be voluntary if at any time the parents wishes to withdraw, the learner would not be disadvantaged in any way as teaching and learning for these learners would continue in the traditional manner.

Confidentiality of the learners as well as the school will be ensured in that pseudonyms are used and distinctive aspects of learner's history that could identify parties will not be used in the report writing. The results of the research will be discussed with the parents and yourself and a copy of the research report will be made available to you the school and the parents.

Your co-operation in this study would be greatly appreciated.

Yours Sincerely,

COUSHEELA REGGIE

(Researcher and Divisional Head)

Permission is hereby granted for Cousheela Reggie to do her research in her class.

APPENDIX 10

Parent Permission Form:

Dear Parent;

My name is Cousheela Reggie your child/wards Educator. I am currently completing my Masters Degree in Education Psychology at the University of the Witwatersrand. Part of the requirements for the degree is the completion of a research project, which I have selected as "THE COGNITIVE APPROACH TO LITERACY INSTRUCTION (CATLI) IN A GRADE 3 CLASS AT A SCHOOL FOR THE DEAF". The CATLI use both top-down (whole language approaches) and bottom-up (phonics) methods. These methods have been proven to make literacy instructions easier for learners as it involves learners in talking (signing) listening and understanding (watching and experiencing), reading and writing tasks. The CATLI is also based on OBE and constructivists principles, which involves learners in experiential learning.

Deaf learners often experience difficulty in acquiring language, reading and writing. The particular method chosen is envisaged to enable us to improve learner's language, knowledge, reading and writing skills rapidly and effectively. By providing permission for your child to participate in this study a contribution will be made towards your child's ability to improve their skills in the area of language, reading and writing.

I request your permission to allow your child to take part in this research. The research will be implemented as part of the Language programme for a period of six months. Participation in this study is voluntary and you are under no obligation. If you choose not to participate or wish to withdraw at anytime, your child will not be disadvantaged in any way, as teaching and learning will continue in the normal way for your child.

Confidentiality of the learners will be ensured in that pseudonyms will be used and distinctive aspects of learner's history that could identify parties will not be included in the report writing. The results will be discussed with you on completion of the research and a copy of the report will be made available to you.

Should you have any queries please do not hesitate to contact me at school.

Thank you for your co-operation.

Yours sincerely,

Cousheela Reggie
(Researcher and Educator)
