Mobile Digital Library

... Universal access to human knowledge

द्वारे द्वारे ज्ञान संपदा

Mobile Digital library van makes use of satellite connection for connecting to Internet.

User can make selection of books from various available options.

Once the book is selected it can be printed using printer fitted inside the van. After printing the book is bound using scorer, cutter and binding machine.

All this process takes very little time. The power connections and back-up is restored using gensets available inside the van.

The van will go to remote places demonstrating the technological aspects of use of digital library and inculcating reading habits.

FBI “National Security Letter” Demand for Information about Patron

U.S. Department of Justice

Federal Bureau of Investigation

935 Pennsylvania Ave., N.W.
Washington, D.C. 20535

November 19, 2007

Internet Archive
116 Sheridan Avenue
San Francisco, California

To whom it may concern:

Under the authority of Executive Order 12333, dated December 4, 1981, and pursuant to Title 18, United States Code (U.S.C.), Section 2709 (Section 201 of the Electronic Communications Privacy Act of 1986) (as amended, October 26, 2001), you are hereby directed to provide to the Federal Bureau of Investigation (FBI) the subscriber's name, address, length of service, and electronic communication transactional records, to include existing transaction/activity logs and all electronic mail (e-mail) header information (not to include message content and/or subject fields), for the below-listed address holders:

We Sued the US Government ...

and won.

Electronic Frontier Foundation
Protecting Rights and Promoting Freedom on the Electronic Frontier

December 17, 2007

Special Agent [REDACTED]
Federal Bureau of Investigation
[REDACTED]

Re: National Security Letter Dated November 26, 2007 to Internet Archive

Dear Special Agent [REDACTED]

This letter is in response to the National Security Letter ("NSL") you served upon the Internet Archive through its counsel, the Electronic Frontier Foundation ("EFF"), on November 26, 2007.

As explained below, the Archive is voluntarily providing responsive public information, but is not providing the non-public information requested by the NSL because the statutes governing the NSL, 18 U.S.C. §§ 2709 and 3511, are unconstitutional and because the Archive is not subject to the NSL statute under either 18 U.S.C. § 2709(a) or under 18 U.S.C. § 2709(f).

The events of September 11th, 2001 affected the entire world.

The 9/11 Television News Archive is a library of news coverage of the events of 9/11/2001 and their aftermath as presented by U.S. and international broadcasters. A resource for scholars, journalists, and the public, it presents one week of news broadcasts for study, research and analysis.

Television is our pre-eminent medium of information, entertainment and persuasion, but until now it has not been a medium of record. This Archive attempts to address this gap by making TV news coverage of this critical week in September 2001 available to those studying these events and their treatment in the media.

[Explore](#) 3,000 hours of international TV News from 20 channels over 7 days, and select analysis by scholars.

LEARNING FROM RECORDED MEMORY: 9/11 TV News Archive Conference

Held on August 24, 2011 at New York University's Department of Cinema Studies, this conference highlighted work by scholars using television news materials to help us understand how TV news presented the events of 9/11/2001 and the international response.

After brief [welcoming remarks by Howard Besser](#), Director of New York University's Moving Image Archiving & Preservation Program and Richard Allen, Department of Cinema Studies, Tisch School of the Arts, New York University, 10 speakers presented the following short talks and [ensuing discussion](#), which you can [watch on the Internet Archive](#).

Japan's devastating earthquake in pictures

Houses are swept up by a tsunami near Sendai Airport after an earthquake on March 11, 2011. (Mainichi)
[Click photo for more.](#)

TOKYO (AP) -- A powerful tsunami spawned by the largest earthquake in Japan's history slammed the eastern coast Friday, sweeping away boats, cars, homes and people as widespread fires burned out of control. A local news report said at least 15 people were killed.

The magnitude 8.9 offshore quake was followed by at least 19 aftershocks, most of them of more than magnitude 6.0. Dozens of cities and villages along the 2,100-kilometer

stretch of the country's eastern shore were shaken by violent tremors that reached as far away as Tokyo, hundreds of kilometers from the epicenter in the sea off the northeastern coast.
