To Whom It May Concern,

**MORATORIUM ON PUBLISHING – 934615**

This serves to inform WITS that Jayshree K. Brijball (Student No.: 934615) is an Exxaro bursary student and is currently completing an MSc: Chemical Engineering. As part of the requirements for fulfilment of this degree, an investigation into the evaluation of non-coking coals is being undertaken and all results will be submitted as part of the final dissertation.

Given the nature of the analysis, Exxaro requires that these findings are not published into the public domain. The sensitivity of the resulting analysis could compromise Exxaro's competitive advantage and consequently erode market presence and the financial viability of the Exxaro Reductants Plant. In consideration of this severe impact, it is required that no information from this study be made available for a period of not less than 5 (five) years.

Please let me know if you require any further information.

Kind Regards,

Sakkie Swanepoel
Group Manager: Marketing and Logistics
