Khawula, Tobile (2016) The effects of morphological changes and carbon nanospheres on the pseudocapacitive properties of molybdenum disulphide, University of Witwatersrand, Johannesburg, <http://wiredspace.wits.ac.za/handle/10539/22691>

Downloaded from a DSpace repository. https://dspace.org/

Candidate Name: Tobile Khawula

Degree: Master of Science, Engineering

Title: The effects of morphological changes and carbon nanosoheres on the pseudocapacitive properties of Molybdenum disulphide.

List of correction	Student comments	Corrections Made
Grammar changes	None	done
Fig.3.1 Add heating rate and atmospheric Nitrogen	None	done
Change formula subscript	None	done
Change unit subscripts	None	done
Change MoS_2 subscripts	None	done
Define symbols for formula (16)	None	done
correct figure number	None	done
check ref. title	None	done
delete unneccesary space	None	done
references: Journal names all written in full	None	done
graph added as fig2.10 in chapter 2	None	done
Change ref title ref 22. chapter 2	None	done
add ref number chapter 3 page 53	None	done
correct y-axis label on fig 4.4	None	done
fig 5.1 f add scale bar	None	done
fig 5.3 f add scale bar	None	done
