

ACKNOWLEDGMENTS

I would like to thank the following people for their encouragement, support and guidance.

To my supervisor, Fiona Donald, whose continual guidance, support and encouragement was greatly appreciated during a time that was needed immensely. Her immediate attention and feedback will not be forgotten. Thank you.

To my parents who were constantly there to support and encourage me, even across the miles.

To my friends, for always being there...thank you for your unconditional support!

The students of Wits, who were willing and enthusiastic participants.

To the members of the Industrial Psychology department for their advice, support and guidance in this research project.
