LIST OF TABLES

Table 1: Measurement of variables of interest in the study……..20

Table 2: Percentage distribution of respondents by selected socioeconomic characteristics……..27

Table 3: Percentage distribution of respondents by their responses to questions on key proximate determinants of fertility……...……...……28

Table 4: Percentage distribution of all women and currently married women by number of children ever born and MNCEB……..……...31

Table 5: Direct and indirect estimation of fertility…….……..…….33

Table 6: Brass P/F Ratio method of estimating fertility in Rwanda…….35

Table 7: Percentage distribution of births in the five years preceding the survey by number of months since preceding birth….……..…….……36

Table 8: Percentage distribution of women who gave birth by exact ages and median age at first birth by current age…….……..……37

Table 9: Fertility levels by selected background characteristics……..……..……..39

Table 10: Median age at first birth by current age and background characteristics…..…….. 41

Table11: Knowledge and practice of contraceptive use by background characteristics ……..43

Table12: Relationship between determinants of fertility….…….…….……...……....45

Table13: Estimated use-effectiveness by contraceptive methods for developing countries..……...50

Table14: Estimating the index of contraception.…… …… …….…….…….51

Table15: Estimates of the indices of the proximate determinants and fertility rates. …… ……...52

Table16: Percent reduction by proximate determinants.…… …….……54

Table17: Effects of socioeconomic variables on fertility in Rwanda (Model A)...…..…… ……...…56

Table18: Effects of socioeconomic variables on fertility in Rwanda (Model B)…..… …… ……..…. .58

Table19: Effects of socioeconomic variables on fertility in Rwanda (Model C)…..… …… ……..……60

TABLE OF CONTENTS

Declaration……ii

Dedication……iii

Aknowledgements……iv

Abstract……..v

List of tables……..vi

Table of contents……...vii

List of abbreviations……x

List of figures……xi

Chapter one: Introduction……..... 1

1.1. Statement of the problem ….……..…….……1

1.2. Research questions ….……..…….……4

1.3 .Objectives….……..…….……4

1.4. Justification….……..…….……..4

1.5. Hypotheses ….……..…….……..6

1.6. Definition of terms ….……..…….……6

1.7. Study limitation ….……..…….……..6

1.8.General presentation of Rwanda……...7

1.9.Organisation of the study…….8

Chapter two: Literature review ….....9

2.1. Literature review ….……..…….……9

2.1.1. Women's education and age marriage ….……..…….……...9

2.1.2. Women's education and contraceptive use ….……..…….……11

2.1.3. Women's education and breastfeeding ….……..…….……13

2.1.4. Women's education and induced abortion ….……..…….……..13

2.2. Theoretical and conceptual framework….……..…….……14

Chapter three: Research methodology……...17

3.1 Introduction…….17

3.2 Source of data……..17

3.3 Sample design ….……...…….…….17

3.4 Instrumentation ….……...…….……18

3.5 Variables of interest…..……...…….…….19

3.6. Data analysis ….……...…….……...21

Chapter four: Respondents' Profiles……..26

4.1. Socioeconomic characteristics ….……...…….……26

4.2. Levels of proximate determinants ….……...…….……..28

4.3 . Fertility levels ….……...…….……29

4.3.1.Children ever born and completed family size (35-49) ….……...……..30

4.3.2. Total fertility rate (TFR) ….……...…….……32

4.4. Birth interval ….……...…….……...36

4.5. Age at first birth ….……...…….……..37

4.6. Fertility differentials ….……...…….……..38

4.7. Proximate determinants by selected socioeconomic characteristics ….……...44

Chapter five: Proximate Determinant of fertility in Rwanda……...47

5.1. Introduction……...47

5.2 .Estimation of the indices of the proximate determinants and fertility rates ….……..48

5.2.1. Estimation of index of marriage…..……...…….…….49

5.2.2. Estimation of index of contraceptive use…..……...…….…….49

5.2.3. Estimation of index of breastfeeding ….…..…….……51

5.3. Relative contribution of each proximate determinant..……...…….……53

Chapter six: Socioeconomic Determinants of Fertility in Rwanda……...55

Chapter seven: Discussions and Conclusion……...62

References……..68
