This is to serve as a letter giving permission to Dr Dafni Zisis to conduct her assessment on the needs of persons aged 65 and older. This will take the form of personal and confidential interviewees to which the person in question has given their permission. The interviews will remain anonymous to have their identity made known. Persons taking part in these interviews do so of their own free will and may cancel if they so decide. It is purely for research purposes and not for financial gain by any parties involved.

Yours sincerely
