Item	***Page***	**External Examiner 1: Revise with minor corrections**		
		Comments on the submitted research report		
1	Abstract	The abstract should be single spaced and should be maximum one page. There should be no sub-titles within the abstract.	Corrected	Abstract page
2	Abstract page	The abstract is to be reduced	The abstract was reduced to a single page	Abstract page
3	7	Background information was insufficient	Background information was "beefed up"	Page 7-8
4	7	1st para, 1st line: references not listed	Corrected citation and updated reference	Page 6
5	7	1st para, 2nd line: incorrect citation	Corrected citation and updated reference	Page 6
6	7	1st para, 9th line: intext citation not in reference list	Reference list updated	Page 6
7	7	1st para, 11th line: intext citation not in reference list	Reference list updated	Page 6
8	7	2nd para, 1st line: confirmation of citation date	2013 date confirmed	Page 6
9	7	2nd para, 2nd line: references not listed	Corrected citations and updated references	Page 6
10	7	2nd para, 3rd line: references not listed	Corrected citations and updated references	Page 6
11	7	The examiner stated that the author should challenge some of the sources slightly as part of critical analysis. The examiner commented that there was too much narration.	The researcher has added his opinion as part of critical analysis of the literature review.	Page 6-7
12	7	Background information was insufficient	Entire page is new additions to the background information.	Page 7-8
13	8	2nd para, 1st line: Incorrect citation and incorrect spelling of author's name and missing co-author	Citation corrected and updated reference accordingly	Page 8
14	8	2nd para, 10th line: Citation with missing references	References added.	Page 8
15	8	2nd para, 11th line: Citation with missing reference	Reference added.	Page 8
16	8	Examiner commented that sources are excellent but there's too much narration.	This was corrected on the following page (page 9), where the examiner also commented on the good critical analysis.	Page 9
17	9	1st para, 1st line: Incorrect Citation and missing reference	Citation corrected and references added.	Page 9
18	9	1st para, 2nd line: Citation with missing reference	Reference added.	Page 9
19	9	2nd para, 1st line: Citation with missing reference	Reference added.	Page 9
20	9	2nd para, 3rd line: Missing letter next to citation date	Correct letter indicated next to citation date.	Page 9
21	9	Examiner commented that an entrepreneur is an employer in their own right.	I agree with the examiner. Error corrected by removing reference to employers in the text.	Page 9
22	10	1st para, 4th line: RE to be written out fully as Real Estates as the first used in the body	Corrected	Page 10
23	10	2nd para, 1st line: First Citation with missing reference	Citation removed as the researcher found it no longer necessary to refer to it. Other more preferred references were kept.	Page 10
24	10	2nd para, 1st line: 2nd and 3rd Citation is missing in reference list	References added.	Page 10

25	10	Examiner commented: what about professional body competencies? Surely they bridge the gap more than entrepreneurial skill.	In the context of this thesis, students and graduates may not necessarily be members of professional bodies as yet. Secondly, professional bodies focus on continuous professional development which may not be necessarily focused on imbuing entrepreneurial skills.	Page 10
26	11	1st para, 1st line: Change study to ascertain	Done	Page 11
27	11	2nd para, 1st line: Add Objective 1 as per examiners comment	Done	Page 11
28	11	Research Question 2: change the objective link to it from Objective 2, to 1.	Changed	Page 12
29	11	Combine research sub-questions 1 and 2	Done	Page 12
30	12	Combine research sub-questions 3 and 4	Done	Page 12
31	12	Change the word in the sub-heading from “proposal” to “research”	Done	Page 12
32	12	Add description of chapters to follow in chapters 3 – 5.	Added descriptions of the chapters to follow in the structure of the research	Page 13
33	13	1st para, 1st line: Citation with missing reference	Reference added.	Page 14
34	13	The examiner questioned whether SA has one of the lowest entrepreneurship intentions rates?	The researchers comment on this is a yes. According to the Global Entrepreneurship Monitor, SA only has a 12.8% rate which is the lowest in Sub-Saharan Africa. A reference has been indicated to that effect, together with a illustrative bar chart.	Page 14
35	13	3rd para: The examiner asked whether entrepreneurship is government policy elsewhere.	The researcher added research information that indicates that the Nigerian government adapted an approach that would ensure that all the tertiary institutions include entrepreneurship education within their course curriculums as stated by Egwuatu (2013).	Page 15
36	14	1st para: The examiner highlighted that the paragraph should have been part of chapter 1 where the motivation of the study was expected to include purpose.	The paragraph was moved to the topic regarding the importance of the research.	Page 9-10
37	14	2nd para, 1st line:Citation is missing in reference list	References added.	Page 15
38	14	3rd and 4th para: The examiner commented asked whether this is the only definition/challenge. Furthermore, the examiner made an example: like the term leadership, it has many definitions and bringing these in as part of critical analysis, would have been helpful.	The researcher added his own views with regards to the definitions of entrepreneurship and entrepreneurship education.	Page 15-16
39	15	1st para: The examiner commented that the researcher’s view is missing.	The researcher has added his own views in that paragraph.	Page 16
40	15	2nd para, heading: The examiner commented that he didn’t see any reference to the real estate discipline represented in the theories.	The researcher deleted the words “the real estate discipline in the heading.	Page 17

41	15	2nd para, 3rd line: Incorrect citation method.	Citation corrected	Page 17
42	17	2nd para, 3rd line: Examiner commented that the researcher should be mindful that the use of the word entrepreneurship is not exhaustive.	Noted.	Page 19
43	19	2nd para: Examiner commented that it surely isn't a job but a mindset	The researcher agrees with this notion and feels that the research references support this notion.	Page 21
44	21	1st para: Examiner commented that the researcher should challenge the definitions and enquired on the researcher's view.	The researcher has commented in the research document with regards to his own views of entrepreneurship education.	Page 23
45	22	4th para: Missing reference.	Reference added	Page 25
46	31	1st para, 1st line: Missing source	Source and related reference added	Page 33
47	31	1st para, last line: change "were" to "are"	Corrected	Page 33
48	31	2nd para: Missing sources with page numbers	Source and related reference added	Page 33
49	32	3rd para, 1st line: The examiner stated that the researcher did not do a systematic search to support the claim that very little research was done with regards to discipline specific research.	Corrected: The researcher agrees with the examiner and thus has removed the statement.	Page 34
50	32	4th para, 2nd line: inconsistent citation method	Corrected	Page 35
51	34	2nd para, 1st line: The examiner enquired if the researcher is sure about the comment because the examiner's view is that industry systems are the domain of professional bodies now.	The researchers comment has more to do with the information link between what gets taught in classrooms and how it relates in industry. Research has found that there is a gap.	Page 36
52	34	2nd para, 4th line: Examiner added experience to the word industry.	Researcher corrected and replaced the word experience with exposure	Page 36
53	36	2nd para, 2nd line: The examiner enquired as to why a mixed method research approach.	The researcher explained that the type of research question posed by the research calls for the need to approach findings both qualitatively and quantitatively in that both personal views of those being interviewed need to be considered and some sort of probability tests can be done which offer a quantitative objective look at responses.	Page 36
54	36	3rd para, 6th line: Remove the word "clearly"	Done	Page 38
55	37	1st para, 2nd and 3rd line: The research question need not be both qualitative and quantitative.	Researcher agrees with this and has removed the comment.	Page 39
56	37	1 para, 6th line: change "&" to "and" for purposes of consistency	Corrected	Page39
57	38	The examiner commented that the point about the missing objective justifies the elements in the literature review	The research has added the 3rd objective and detailed it in the research design framework.	Page 40
58	39	3rd para, 7th line: Direct Interviews were not done. Thus the word "interviews" was dropped.	Corrected.	Page 41
59	40	1st para, 8th line: The examiner enquired on how the international universities were selected.	The international universities were selected based on the availability of entrepreneurship-based courses within their curriculum.	Page 42

60	40	2nd para, 6th line: The examiner commented that the only way for the researcher to assess graduate's levels of early stage entrepreneurship is if the researcher knew them.	Given that the researcher did not know them, the assessment of early stage entrepreneurial activity would be impossible and thus was replaced with assessment of the probability of graduates to start their own businesses.	Page 43
61	41	3rd para, 3rd line: change "not biased" to "less biased" and change "reliable" to increasing reliability.	Corrected	Page 43
62	42	1st para: The examiner made comments for the sentence tense to be changes in some area.	Done	Page 44
63	42	1st para, 2nd line: The examiner asked why a number of 20-30 graduates were targeted.	The researcher corrected the statement by stating that 60-80 graduates were targeted, even though approximately 30 graduates responded over a period of 5 months.	Page 44
64	42	2nd para, 7th line: change "us" to "the researcher"	Done	Page 44
65	42	The examiner commented that it could also be the added qualification and not the real estate's one that contributes to the successful starting of a business.	The researcher agrees with this the examiner's comment and has added a sentence alluding to that fact.	Page 44
66	47	1st para, 4th line: change surveyors to researchers	Done	Page 49
67	47	Move the paragraph titled: Implications of this research, to after the conclusions in chapter 5.	Done	Page 49
68	48	The examiner requested for a change in tense and that only components that applied to the research is to be included in the methodology.	The researcher changed the sentence tense and removed components that do not apply.	Page 51
69	49	The examiner stated that the section containing ethical dilemmas could have been done better by stating what was done and how the research treated these ethical ideas.	The researcher has stated how the research treats elements of ethical considerations.	Page 50-51
70	49	3rd para, 1st line: change tense.	Done	Page 51
71	50	1st para: 5th and 6th line: The examiner commented that there is no evidence of a systematic literature search that validates the comment about the lack of research done one addressing integration of entrepreneurship in SA.	The researcher agrees with the examiners view and has removed the comment.	Page 52
72	51	The examiner questioned responses by the age group 18-24 under the heading course/program directors	The survey included lecturers, junior and assistant lecturers, hence some responses came from that age group. The researcher elaborated on this in the document under the title of respondent profile.	Page 53
73	52	The examiner enquired about the lecturer/course director response rate.	Of the 60, only 17 course/program directors responded to the survey. This has resulted in a low response rate of 28%.	Page 54
74	53	The examiner also enquired on the students/graduate response rate.	The response rate was approximately 26%. This has been recorded in the research document.	Page 55
75	55	The yellow colour in the bar graphs makes the graph difficult to see.	All the bar graph colours were changed in order to make them more visible.	Page 57-67

76	68	The examiner enquired how the finding that the graduates made no plans as to when to launch their real estate business, when the research has found a high probability of starting a business amongst students who were taught through entrepreneurial education.	In the researcher's opinion, planning is a matter of timing rather than an absolute stance. The lack of planning from the students may be emanating from other circumstances such as difficulties in accessing finance and insufficient exposure to the industry.	Page 71

	Page	**External Examiner 2: revise minor corrections**		
		<u>Comments on the submitted research report</u>		
77	Page 5-6	The abstract should be single spaced and should be maximum one page. There should be no sub-titles within the abstract	Done	Page 5
53	Page 7	The background information is scanty (only one page at the moment). The candidate should beef up and rather reduce the problem statement to a page.	The background was beefed up by the researcher.	Page 6-7
54	Page 12	The organization (structure) of the thesis should not end at chapter 2. The rest of the chapters should also be mentioned.	Structure of the thesis was added	Page 12-13
55	Page 48	On page 48, some of the font appear in large blue. The candidate should edit this and ensure consistency of the appearance.	Corrected.	Page 49
56	Page 51	On page 51, the graph 1 (heading of the first figure) should be changed to Figure 4.1. The next graph should be called 4.2 and so on…	Figures have been relabeled correctly.	Page 53-67
57	Page 51-66	The entire chapter 4 needs to be improved. The candidate should discuss the intuitions behind and the implications of the results. The candidate should also discuss the results in relation to the literature by identifying those studies whose findings are similar to or different from what he/she is reporting and then discuss them together	The researcher revised and made improvements to chapter 4. Though, it must be noted that most of the commentary with regards to the findings in chapter 4 are discussed at length in chapter 5. The researcher has, however, made an effort to refer to the findings and compare them to some of the findings by other authors in the literature review.	Page 57-70
58	Page 57-70	The heading of chapter 5 should be "Summary and Conclusions" instead of only conclusion we have at the moment. The chapter should be structured as follows: • 5.1. introduction • 5.2 Summary of findings • 5.3 Conclusions • 5.4 Recommendations	The heading of chapter 5 was changed accordingly. The chapter was also structured in accordance with the examiner's recommendations.	Page 71-74

57	Page 51-66	The entire chapter 4 needs to be improved. The candidate should discuss the intuitions behind and the implications of the results. The candidate should also discuss the results in relation to the literature by identifying those studies whose findings are similar to or different from what he/she is reporting and then discuss them together	The researcher revised and made improvements to chapter 4. Though, it must be noted that most of the commentary with regards to the findings in chapter 4 are discussed at length in chapter 5. The researcher has, however, made an effort to refer to the findings and compare them to some of the findings by other authors in the literature review.	Page 57-70
58	Page 57-70	The heading of chapter 5 should be "Summary and Conclusions" instead of only conclusion we have at the moment. The chapter should be structured as follows: • 5.1. introduction • 5.2 Summary of findings • 5.3 Conclusions • 5.4 Recommendations	The heading of chapter 5 was changed accordingly. The chapter was also structured in accordance with the examiner's recommendations.	Page 71-74
