ACKNOWLEDGEMENTS

I would like to acknowledge:

- The patients in the study who, besides trusting me and working with me, have enriched my life
- Louisa Mkhabela for all she taught me about HIV and so much more than medicine
- My supervisors, Professor Saraladevi Naicker and Dr Francois Venter for their support, advice, expertise and encouragement
- The staff of the HIV clinic at Johannesburg Hospital for their assistance, in particular the sisters and counsellors, Miss Lucie Modise and Miss Busisiwe Ntulini
- My colleagues: Dr's Sagren Naidoo, Graham Paget and Shoyab Wadee
- Professor Stewart Goetsch for his outstanding histopathology expertise
- Heather Maher for her assistance with screening and much more than that
- Lee Baker whose constant help in the clinic and belief in what we are doing has been an incredible source of strength
- My close friends and family for their constant love and support
- The following organisations for their assistance in the funding of this project:

  National Kidney Foundation of South Africa

  Department of Medicine, University of Witwatersrand

  Wits ARI (Aids Research Institute)

  RHRU (Reproductive Health and Research Unit)

  The cost for processing specimens that were not considered "standard of care" was borne by the HIV/ART clinic funding through Dr Francois Venter, Head of the HIV clinic at Johannesburg Hospital
