Consent to be Audiotaped

This consent form gives Jennie Ashwal permission to audio record my research interview for data analysis and transcription purposes. This is simply a method that is used to maintain the integrity of the data and to make analysis easier.

I have noted the following:

- My identity will be protected and I will not be required to give out my name in this recording.
- Access to these recordings will be restricted to the researcher. No other persons will have access to these recordings.
- The recordings will be kept safe, in a private location known only to the researcher, and will be stored in password protected files.
- The recording will be destroyed after 2 years if the study is published or after 6 years if it is not published.
- These recordings will **not** be presented publicly or as a part of the study results.
- All identifying information will be removed from the transcripts and although direct quotes from the transcripts will be used in the final write-up, these will not be linked to any identifying information and will be used in conjunction with quotes from other participants.

If I have concerns or queries regarding the audio recording of this interview I can ask the researcher before we begin the interview so that he may clarify them for me.
