TO RBA, its Entity, and Rasimone Kgosa

Royal Bafokeng Nation

Lea September's research attempt to answer the question: How did the relocation process unfold in Rasimone? In order to answer this question, she focuses on the relocated community in Rasimone in early 2000, the relocation which was meant to make place for the extension of the Bafokeng Rasimone Platinum Mine (BRPM). She is particularly looking at how the relocation process unfolded, and at the key issues that were uncovered by the resettlement process

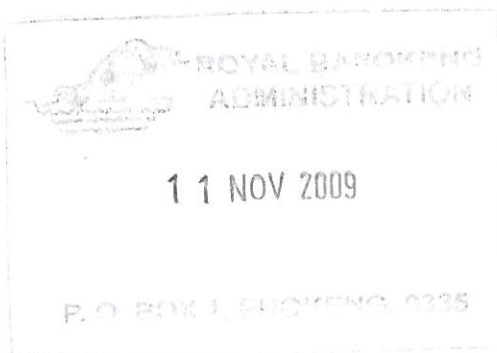

The Research and Planning Department in the Office of Kgosi is overseeing Ms. September's research, and has granted her permission to conduct research in Rasimone (which will also necessitate interviews with relevant officials in the RBA and its entities). Thank you for assisting Lea September in whatever way possible and permissible, including providing relevant information

Your cooperation is most appreciated

Rre Magosi Tumaqole
Head, Tradition Affairs
Office of Kgosi

11.11.2009.

Date

Greetings from the Royal Bafokeng Nation
