PRESENTATIONS ARISING FROM THIS STUDY

Poster Presentations:

Joint Conference of the Royal College of Physicians and the College of Physicians of South Africa; Cape Town, South Africa; 23 - 24 February 2007

Urinary abnormalities (other than proteinuria) on screening of HIV infected outpatients: implications regarding management

Fabian J.[1], Naicker S.[1], Venter F.[2], Baker L.[3]

[1]University of Witwatersrand, Johannesburg Hospital, Division of Nephrology, Johannesburg, South Africa, [2]HIV Clinic, Johannesburg Hospital, Reproductive Health and Research Unit, University of the Witwatersrand, Johannesburg, South Africa, [3]Amayeza Drug Information Centre, Johannesburg Hospital, South Africa

Renal disease in an ambulant outpatient population of HIV-infected patients in South Africa

Fabian J.[1], Naicker S.[1], Venter F.[2], Baker L.[3]

[1]University of Witwatersrand, Johannesburg Hospital, Division of Nephrology, Johannesburg, South Africa, [2]HIV Clinic, Johannesburg Hospital, Reproductive Health and Research Unit, University of the Witwatersrand, Johannesburg, South Africa, [3]Amayeza Drug Information Centre, Johannesburg Hospital, South Africa

World Congress of Nephrology, Rio De Janeiro, Brazil; 25 - 27 April 2007

Urinary abnormalities (other than proteinuria) on screening of HIV infected outpatients: implications regarding management

Fabian J.[1], Naicker S.[1], Venter F.[2], Baker L.[3]

[1]University of Witwatersrand, Johannesburg Hospital, Division of Nephrology, Johannesburg, South Africa, [2]HIV Clinic, Johannesburg Hospital, Reproductive Health and Research Unit, University of the Witwatersrand, Johannesburg, South Africa, [3]Amayeza Drug Information Centre, Johannesburg Hospital, South Africa

Renal disease in an ambulant outpatient population of HIV-infected patients in South Africa

Fabian J.[1], Naicker S.[1], Venter F.[2], Baker L.[3]

[1]University of Witwatersrand, Johannesburg Hospital, Division of Nephrology, Johannesburg, South Africa, [2]HIV Clinic, Johannesburg Hospital, Reproductive Health and Research Unit, University of the Witwatersrand, Johannesburg, South Africa, [3]Amayeza Drug Information Centre, Johannesburg Hospital, South Africa

4th International Aids Society Conference on HIV pathogenesis, Treatment and Prevention; Sydney, Australia; 22 - 25 July 2007

Urinary abnormalities (other than proteinuria) on screening of HIV infected outpatients: implications regarding management

Fabian J.[1], Naicker S.[1], Venter F.[2], Baker L.[3]

[1]University of Witwatersrand, Johannesburg Hospital, Division of Nephrology, Johannesburg, South Africa, [2]HIV Clinic, Johannesburg Hospital, Reproductive Health and Research Unit, University of the Witwatersrand, Johannesburg, South Africa, [3]Amayeza Drug Information Centre, Johannesburg Hospital, South Africa

Oral Presentations:

South African Congress of Nephrology; Cape Town, South Africa; 18-21 March 2006

Proteinuria in an ambulant outpatient population of HIV infected patients

Fabian J.[1], Naicker S.[1], Venter F.[2], Baker L.[3]

[1]University of Witwatersrand, Johannesburg Hospital, Division of Nephrology, Johannesburg, South Africa, [2]HIV Clinic, Johannesburg Hospital, Reproductive Health and Research Unit, University of the Witwatersrand, Johannesburg, South Africa, [3]Amayeza Drug Information Centre, Johannesburg Hospital, South Africa

World Congress of Nephrology, Post Congress Satellite Meeting: Renal Disease in Minority Populations and Developing Nations; 25-27 April 2007

HIV/AIDS and Kidney Disease: Recent Advances in Understanding Risk Factors for Development and Progression of Renal Disease in Disadvantaged Populations

Fabian J.[1], Naicker S.[1], Venter F.[2], Baker L.[3]

[1]University of Witwatersrand, Johannesburg Hospital, Division of Nephrology, Johannesburg, South Africa, [2]HIV Clinic, Johannesburg Hospital, Reproductive Health and Research Unit, University of the Witwatersrand, Johannesburg, South Africa, [3]Amayeza Drug Information Centre, Johannesburg Hospital, South Africa
