

**Examiner 2****Response to external examiners feedback**

The external examiner's comments have provided valuable input into improving the researcher's research report. The examiner's comments have been incorporated into the final research report. A summary of the researcher's responses to the external examiner is presented in the table below.

The responses/corrections as listed below are reflected in **green highlighted text** on the amended report.

| No.              | Examiner's comments                                                                                                                            | Responses/corrections                                                                 |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
| <b>CHAPTER 1</b> |                                                                                                                                                |                                                                                       |
| 1                | Chapter 1<br><br>The candidate did not present significance of the study carried out.                                                          | The significance of the study is now included as sub section 1.3 of Chapter 1.        |
| 2                | Chapter 1<br><br>1.4<br>The structure of the report is in order; however, Chapter one was omitted in the structure presented for the research. | 1.6<br>Chapter one has now been included in the structure presented for the research. |
