APPENDIX B

Appendix B.1: Excavated sites.

Appendix B.2: Iron Age sites in the survey zone identified by Tom Huffman.

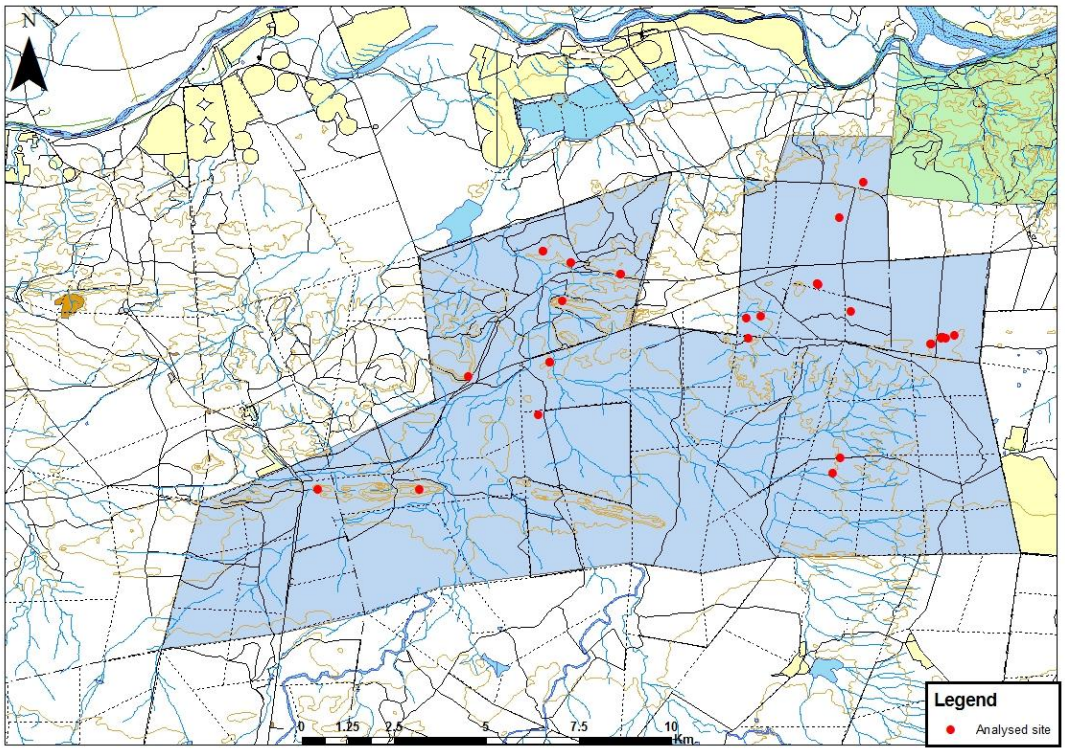

Appendix B.3: Rock art sites identified by Ed Eastwood.

Soil	0	no data
	1	unconsolidated red/brown
	2	consolidated red/bown
	3	red/brown
	4	pan clay
	5	lake clay
	6	alluvial soils
	7	no soil
	8	talus
	9	little
Erosion	0	no data
	1	extensive erosion
	2	considerable erosion
	3	slight erosion
	4	stable
	5	no erosion
	6	depositonal
Location	0	no data
	1	river side/bed
	2	pan side
	3	lake side
	4	flats
	5	valley
	6	koppie
	7	koppie top
	8	hill
	9	hilltop
	10	boulder
	11	thicket
	12	tree
	13	rock outcrop
	14	shelter
	15	between koppies
	16	escarpment edge
Habitat type	0	no data
	1	dense
	2	open
	3	mixed

Grass cover	0	no data
	1	1-25%
	2	25-50%
	3	50-75%
	4	75-100%
Animal activity	0	no data
	1	small animal burrowing
	2	large animal burrowing
	3	trampling and burrowing
	4	large/small burrows
	5	trampling
	6	none
	7	little
Natural features	0	no data
	1	undulating
	2	punctuated kopjes
	3	valleys
	4	hills
	5	visible water
	6	dunes
	7	mound
	8	flats
	9	plateau edge
	10	hill ridge
Human activity	0	no data
	1	farming settlement
	2	herder settlement
	3	european settlement
	4	kraal
	5	road
	6	none
	7	stone circle
	8	hearth
	9	burial
	10	kraal
	11	little

Appendix B.4: Site record sheet.

Appendix B.5: Map showing the distribution of the analysed open air sites.

Site no.: Site name: GPS: Square:

Length:

Width:

	Lithic types:																		Total
Lithics	Total:																		
Raw Material:																			

Ceramics no. Decoration designs (also photograph):

Plain	
Decoration	
Rim plain	
Rim dec.	
Rimtop dec.	
Lugs	

Beads:		Iron:		Bone:		Notes:

Appendix B.6: Artefact record sheet. Lithic types were recorded as they were found. The total row refers to the total per lithic type. In the bead/iron/bone columns a name and number was written into the available space (e.g. Beads: OES 5).

Appendix B.7: Mbere Rock Shelter and Den Staat AB 32.
