Diversity and Conservation of Ultramafic Flora in Swaziland

Donald Alexander McCallum

A Dissertation Submitted to the Faculty of Science, University of the Witwatersrand, Johannesburg, for the Degree of Master of Science

Johannesburg 2006

ACKNOWLEDGEMENTS

Help, support and encouragement from many people made this research possible.

My thanks and gratitude to:

Prof. K. Balkwill who supervised this thesis and gave much time, advice, help with plant identification and encouragement during the research and writing up, provided funding from his research grant and allowed me time to work on my research.

Dr M.-J. Balkwill who supervised the early stages of the project.

Prof. R. N. Pienaar, Dr. E.R Robinson, Prof. K. Rogers, Prof. M. Scholes, Prof. E. Witkowski who gave their time to attend my research committee meetings and gave valuable guidance and advice.

Mr R, Boycott who allowed access to Malolotja Nature Reserve, arranged permits to do the research and always enthusiastically supported my research.

Mrs R. A. Reddy who entered all my specimens in the C.E. Moss herbarium database and always cheerful provided me with lists, help with identification and encouragement.

Mr V. Schneiderman who always went the extra mile to get me the equipment I needed.

The University of the Witwatersrand for a Staff Bursary.

Most of all thanks to my wife Gail for her love, support and encouragement and my children Kay and Ryan who all sacrificed so many hours to this project.
