## **Abstract**

An understanding of the NOS is a basis for scientific literacy which is one of the major goals of science education the world over. This study compared Grade 11 High school learners (n=10) and third year Bachelor of Education, Pre-service teachers' (n=10) understandings of Nature of Science (NOS). Data on participants' understandings of NOS was collected by means of a Likert type questionnaire and through semi - structured interviews. Likert type questionnaire data was quantitatively analysed using a combination of descriptive statistics, the Mann-Whitney U test and graphical comparison of group median scores on questionnaire items to ascertain differences in NOS understandings between the Grade 11 learners and the B.Ed. Pre-service teachers. Semi-structured interview data was analysed through a combination of typological and interpretative analysis of interview transcripts to determine differences in NOS understandings between the two groups. The findings reveal that there are no significant differences in the understandings of the NOS between the Grade 11 learners and third year, Bachelor of Education, Pre-service teachers. The analyses reveal that overall; the Grade 11 Learners and third year B.Ed. Pre-service teachers' understandings of NOS are not very different from each other. Both groups held such misunderstandings as; there is a single scientific method, scientific knowledge is not socially and culturally embedded, scientific knowledge is universal and can be proven through collection of empirical data. It is recommended that if the goal of science education for scientific literacy is to be achieved, initial teacher education training should do more to explicitly develop Pre-service teachers' subject matter knowledge understandings, pedagogical skills and valuing of NOS, that is, their pedagogical content knowledge for nature of science. Explicit testing of learners' NOS understandings is also suggested as a way of improving the school Physical Science curriculum. The effectiveness of the current science content and methods courses in improving the Pre-service teachers' NOS understandings is questioned. Recommendations for further studies are suggested.

## **Key words**

Nature of science, nature of scientific inquiry, pre-service teachers, learners, understandings

## Declaration

I declare that this research report, titled:

### **A Comparison of Grade 11 learners' and Pre-service Teachers' understandings of Nature of Science**

is my own work and that all sources I have used or quoted have been indicated and acknowledged by means of a complete references list.

It is being submitted for the degree of Masters of Science at the University of the Witwatersrand, Johannesburg, South Africa. It has not been submitted before for any degree or examination purposes at any other university.

## **Acknowledgements**

I would like to pass my gratitude and sincere thanks to everyone who made this study possible especially:

- To my supervisor, Professor Elaosi Vhurumuku for the professional guidance
- To my family for the support
- To all the participants for their time and effort

# Table of Contents

## Chapter One: Introduction to the study

|     |  |   |
|-----|--|---|
| 1   | Introduction.....                      | 1 |
| 1.1 | Background and context of study.....   | 3 |
| 1.2 | The research problem.....              | 5 |
| 1.3 | Research objectives and questions..... | 6 |
| 1.4 | The Conceptual framework overview..... | 6 |
| 1.5 | Literature review overview.....        | 7 |
| 1.6 | Research methodology overview.....     | 8 |
| 1.7 | Chapter summary.....                   | 9 |

## Chapter Two: Conceptual framework and literature review

|       |   |    |
|-------|---|----|
| 2     | Introduction.....   | 10 |
| 2.1   | Conceptual framework.....   | 10 |
| 2.2   | The nature of scientific knowledge.....   | 18 |
| 2.3   | The nature of scientific inquiry.....   | 21 |
| 2.4   | Literature review.....  | 23 |
| 2.4.1 | Studies of teachers' understanding of nature of science.....  | 23 |
| 2.4.2 | Studies of learners' understanding of nature of science.....  | 26 |
| 2.4.3 | Studies comparing learners' and teachers' understanding of<br>nature of science.....                                    | 31 |
| 2.5   | Rationale for comparing Grade 11 learners' and Pre-service<br>teachers' and understanding of the nature of science..... | 34 |
| 2.6   | Previous studies of the nature of science in South Africa.....  | 35 |
| 2.7   | Chapter summary.....  | 35 |

### **Chapter Three: Research methodology**

|       |  |    |
|-------|--|----|
| 3     | Introduction.....  | 36 |
| 3.1   | Research design.....   | 36 |
| 3.2   | Participants sampling.....   | 40 |
| 3.2.1 | The learner sample.....  | 40 |
| 3.2.2 | The Pre-service teachers sample.....   | 42 |
| 3.3   | Research instruments.....  | 42 |
| 3.3.1 | The VAWOSQ.....  | 42 |
| 3.3.2 | Semi-structured interview schedule.....  | 44 |
| 3.4   | Validity and reliability.....  | 45 |
| 3.5   | Ethical issues.....  | 46 |
| 3.6   | The Data collection procedure.....   | 47 |
| 3.6.1 | Administration of learner questionnaires and conducting learner interviews.....                                      | 47 |
| 3.6.2 | Administration of the Views About What Occurs in Science Questionnaire and interviewing of learners.....             | 47 |
| 3.6.3 | Administration of the Views About What Occurs in Science Questionnaire and interviewing of Pre-service teachers..... | 48 |
| 3.7   | Data analysis.....   | 49 |
| 3.7.1 | Analysis of VAWOSQ data.....   | 49 |
| 3.7.2 | Analysis of the semi-structured interview data.....  | 51 |
| 3.8   | Chapter conclusion.....  | 52 |

### **Chapter Four: Results and discussion**

|     |  |    |
|-----|--|----|
| 4.  | Introduction.....  | 53 |
| 4.1 | Grade 11 learners' understanding of nature of science.....   | 53 |
| 4.2 | Pre-service teachers' understanding of nature of science.....                                      | 58 |
| 4.3 | Comparison of Grade 11 learners' and Pre-service teachers' understanding of nature of science..... | 63 |
| 4.4 | Discussion.....  | 66 |
| 4.5 | Chapter summary.....   | 70 |

## **Chapter Five: Conclusion, implications and recommendations**

|     |  |    |
|-----|--|----|
| 5.  | Introduction.....  | 71 |
| 5.1 | Grade 11 learners' understanding of nature of science.....   | 71 |
| 5.2 | Pre-service teachers' understanding of nature of science.....                                      | 72 |
| 5.3 | Comparison of Grade 11 learners' and Pre-service teachers' understanding of nature of science..... | 73 |
| 5.4 | Conclusion.....  | 74 |
| 5.5 | Implications and recommendations.....  | 75 |
| 5.6 | Recommendations for further research.....  | 76 |
| 5.7 | Reflections.....   | 77 |

### **List of figures**

## **Appendices**

Appendix 1: The Views About What Occurs in Science Questionnaire (VAWOSQ)

Appendix 2: The interview schedule

Appendix 3: Grade 11 learners' questionnaire response data

Appendix 4: Pre-service teachers' questionnaire response data

Appendix 5: The Mann-Whitney U test

Appendix 6: Information for the school principal

Appendix 7: Letter to inform Parent/ Guardian

Appendix 8: Interview consent form (Parent/Guardian)

Appendix 9: Questionnaire consent form (Parent/Guardian)

Appendix 10: Consent form for school principal

Appendix 11: Information for pre-service teacher

Appendix 12: Information form for head of school

Appendix 13: Interview consent form pre-service teacher

Appendix 14: Questionnaire consent form pre-service teacher

Appendix 15: GDE approval letter

Appendix 16: Wits approval letter

Appendix 17: Wits ethics letter
