APPENDIX C
FOCUS GROUP QUESTIONS

Aim

To explore the lack of contact between white and black students by looking at:

- ❖ Is it a good idea for the racial groups to mix socially?
- ❖ Is there mixing on campus?
- ❖ Are there opportunities for the racial groups to mix?
- ❖ What are the barriers to contact?
- ❖ Is there mixing outside the university setting?
- ❖ Will there be a time in South Africa when the groups will mix socially?

APPENDIX E
SUBJECT INFORMATION SHEET

Dear Participant

My name is Eugené Conradie and I am a Masters in Community Counseling student at the University of the Witwatersrand. As part of my degree I am conducting explorative research into why students of different racial groups do not mix socially. The central aim of this study is to explore the barriers that deter students from mixing socially with others from different groups.

I wish to invite you to participate in this study. Please note that your participation is voluntary and that there will be no negative consequences should you wish not to take part. Should you decide to participate in the study, you will be required to take part in a focus group discussion which will last for approximately one hour. If it is in order with you, I would also like to tape the discussion. The identities of participants will be kept confidential when reporting. All the information obtained from the discussions will be treated as strictly confidential, and only my supervisors and I will have access to it. The tapes will be destroyed after the research has been completed.

Your participation in this study would be greatly appreciated.

Yours sincerely
