### **Cover letter and questionnaire**

**Exploring how values shape the entrepreneurial propensity of youths: a study of the young, black South African entrepreneur.**

Dear Sir/Madam,

My name is Robert Venter and I am both a PhD candidate and a member of staff in the School of Economic and Business Sciences, University of the Witwatersrand, Johannesburg. The title of my PhD research is: ***Exploring how values shape the entrepreneurial propensity of youths: a study of the young, black South African entrepreneur.*** Specifically, I am interested in understanding how hybrid values (that is, the mix between traditional African and Western values) are used by youth entrepreneurs in the informal economy to secure entrepreneurial advantage and achieve entrepreneurial success.

As a young black entrepreneur in Johannesburg's informal economy, you are invited to participate in my research by completing the attached questionnaire. The purpose of the questionnaire is to investigate how your different values help you gain access to different resources as well as impact the performance of your business.

The questionnaire is broken down into eight parts. In part 1, you will be asked questions about you and your business. In part 2, you will be asked questions relating to how you see yourself as in relation to your business. In part 3, you'll be asked about what you need to run a successful business. In part 4, you'll be asked questions relating to how you run your business. In part 5, you'll be asked questions about where you'd like to go with your business in the future. In part 6, you will be asked questions relating to your culture and different entrepreneurial values. In part 7, you'll be asked questions about your belief in yourself. In section 8, you'll be asked questions about why you started your business. There are 80 questions in total and the questionnaire should take about 20 minutes to complete.

***What will happen if you choose to participate in the research?***

- There is no risk to you and no harm will come to you if you do participate
- My research assistant will ask you to sign a consent form. By so doing, you agree to participate in the research. Before signing the form, please make sure that she has answered any questions you might have about the research.
- Your responses are important and there are no right or wrong answers. It would be appreciated if you answered all the questions. However, you may choose not to answer certain questions and you may stop answering the questionnaire at any stage.
- Your responses will be taken to be both confidential and anonymous. In order to ensure your confidentiality and anonymity, you will not be required to give your name or your business's name at any stage.
- Should you struggle to understand any of the questions, my research assistant will assist by translating them into a language you are comfortable with.
- This study is for academic purposes only. The results of the study will only be reported in my thesis as well as in journal articles, and your responses will not be shared with anyone else. Questionnaires will be kept for a period of 5 years in my office to facilitate further research, and will be destroyed thereafter.

***What will happen if you choose not to participate in the research?***

- Participation in the research is purely voluntary. Nobody will force you to complete the questionnaire.
- There will be no penalty or consequence if you do not complete the questionnaire.

The study was approved unconditionally by the Human Research Ethics Committee (non-medical) of the University of the Witwatersrand, Johannesburg. Should you have any queries relating to the research, please feel free to contact me on 084 580 7587 or [robert.venter@wits.ac.za](mailto:robert.venter@wits.ac.za). Alternatively, you can contact my supervisors, Professor Boris Urban, on 083 793 3069 or [boris.urban@wits.ac.za](mailto:boris.urban@wits.ac.za) or Professor Chris Rogerson at [crogeron@uj.ac.za](mailto:crogeron@uj.ac.za). You may additionally direct any requests for copies of the results to me on the aforementioned numbers.

Rob Venter
