TO WHOMM IT MAY CONCERN

Re: Robyn Fraser Master's Research

This letter serves to confirm that we are in agreement with the research that Robyn is undertaking for her Masters Degree.

As indicated by Robyn the research will not reveal our children's names or personal details but will focus on the impact the Big Brother programme has on our children. Hence we are in agreement with her proposal.

Should you require any further information please contact us.

Yours faithfully,

Eddie & Hazel de Vos
